FORWARD

The Constitution of Liberia declares education as a right of all citizens and by extension, residents at any given time. That responsibility is sectorized and attributed principally to the Ministry of Education by an act of Legislature. The responsibilities so clearly attributed to the Ministry, encompasses planning, research, development of strategies, resource mobilization and organization, and action plans that are result driven. The Ministry, therefore, has an annual reporting responsibility that accounts for the conduct of its stewardship and action plans for the ensuing period.

Education is purely a human capital development function of a country. Therefore, its role and responsibility in nearly all cases, require intersectoral collaboration, and for all intents and purposes, expenditures made in these regards, are properly an Investment with measurable returns. Creating an inventory of competent human capital is the beginning of the enforcement of the agenda for irreversible National Development. However, the cost of doing so is usually prohibitive, demanding significant sacrifices in the allocation of resources, which in most cases interferes with other pressing priorities of the state. All things being equal, the rate of national development is proportionally a function of the rate of quality Education dispensed to the population.

Education is the independent variable in national development and is unmatched among other social services insofar as sectorial roles are concerned. It is therefore true that the greater the investment in human capital and the quality thereof, the greater the acceleration in national growth and development, defined by the quality of service delivery in other sectors such as healthcare, agriculture, gender, general governance, tolerance, peace building among others.

While the MDGs suffered failings in key deliverables or targets, the SDGs have been structured cognizant of those failings, to ensure that 2030 is a reasonable timeline for results. On that note, there is an increasing global consensus that minimum investment of 20% of annual national expenditures reflects human capital development. While such targets may be a challenge for many nations, the long-term benefits worth the early sacrifice. Amidst fiscal constraints, the Liberian Government average investment in Education for the recent past and current fiscal periods, is staggering 15% with expectation to leverage best efforts in meeting the minimum benchmark of 20% before 2023, seven years to the finish line of the SDGs.

In the above regard, the Ministry of Education is pleased to present the following excerpts of its performance outcomes for 2019 and planned performances in 2020 with pointed targets that must be met, but more so, targets that are meaningful, measurable and achievable, regardless. The President of Liberia, His Excellency Dr. George Manneh Weah, has, both in form and substance, committed the Government to a transformative life changing education and the creation of a reservoir of human capital, capable of responding to the national development needs in all aspects of life. That commitment of the Head of Government has incited us as key lieutenants in the human development arena to adopt our best professional expertise, capable of performing these national imperatives.

This report, therefore, constitutes the performance of the Ministry of Education in 2018/2019 fiscal year, plans and strategies in store for the people of Liberia from the education context.

As Minister of Education, I am pleased to acknowledge the significant contribution of Development Partners' support for education in Liberia during this period under review and as always.

opii, Sr.

Prof. D. Ansu Sonii, Sr.

MINISTER

ACKNOWLEDGEMENT

The Ministry of Education, Republic of Liberia, is exceedingly thankful and appreciates all its stakeholders and development partners for the support received during the FY 2018/2019, which culminated into some remarkable achievements.

Special commendation goes to USAID, UNICEF, GPE, USAID-Read-Liberia program, and Plan International/Liberia for supporting the processes that led to the development of this performance report. The report provides insight into the performance of various program units of the Sector, and informs policy focus and decision-making.

Furthermore, the Ministry is grateful to Assistant Minister, Dominic D. Kwame and Director of Planning, Mr. Alex K. Mbonlonda for providing leadership to the process; and to the Performance Report Writing Technical Team: Mr. Soudah A. Dolo (Evaluation Specialist) – Team Lead, Mr. Eugene W. Jappah (Planning Officer), Mr. Gabriel L. Nelson (Director/ECE), Mr. Charsley K. Kumbly (Director/Students Personnel Services), Mr. Lewis D. Julue (Program Coordinator/Instruction), Mr. Moses D. Prowd (Supervisor/Planning), Mr. K. Dormu Farwenee (Supervisor/ M & E), and Madam Comfort Summerville (Coordinator/Students Personnel Services); as well as all program leads (All Assistant Ministers), technical staff and partners for their contributions to the process.

The Ministry of Education, under the leadership of Professor D. Ansu Sonii,Sr., strives to engender a transformative and productive education system in the country. Achieving this feat, calls for all hands on deck to co-leverage supports and resources required to move the sector forward. It is only through our collective efforts and resolves that the nation's Education Sector can be reformed.

Lastly, the Ministry acknowledges the enormous funding and technical contributions and support it received from stakeholders and development partners during the reporting period.

Hon. Dominic Kweme

Acting Deputy Minister

Planning, Research & Development

EXECUTIVE SUMMARY

The Joint Education Sector Review is an annual event of the Ministry of Education (MoE) and its partners to take stock of progress made on planned targets so as to set new benchmarks for subsequent years. As such, this review focuses on the 2018/2019 operational plan of the five-year G2B Education Sector Plan aligned with various national and international policy documents, including the PAPD as well as the CESA 2063 and SDG.

In this regard, successes and challenges were experienced during the execution of the sub-sectors' programs comprising Early Childhood Education, Basic and Secondary Education and Student Personnel Services. Other sub-sectors' programs considered were Teacher Education & Management, TVET, STEM and Inclusive Education, Education Management & Governance as well as Higher Education were assessed to determine the extent of investment within the sector and appreciate the magnitude of gaps in funding and other inputs.

Given resource constraints of the Government of Liberia, past and present, vis-a-vis the enormity of the challenges associated with the urgent transformation of education, which is the wheel of national development anywhere, Liberia not without, the Ministry of Education set off being aggressive in pursuing complementary funding to counterpart Government initiatives, and help jump start and guarantee, the human capital development project which has become an emergency in Liberia development life.

The team at the Ministry of Education complemented in part, by the Ministry of Youth and Sports on the Vocational Education front, launched a resource mobilization drive nearly 14 months ago, in collaboration with the Minister of Finance and Development Planning. This initiative has resulted in an unprecedented response from traditional Development Partners and Philanthropies.

As provided in the extract table attached to this report, the total resources mobilized during the fiscal period, 2018/2019, aggregates US\$145.6m (One Hundred and Forty-Five Million and Six Hundred Thousand United States Dollars) and Euros 26 (Twenty-Six Million Euros), all of which were 100% Grant with no conditions. However, Ministry was urged to execute the agreed programs with absolute integrity and efficiency, considering the timeliness of three to five years (ending 2023). To the extent practicable, this excerpt from the Ministry's resource mobilization initiatives is by no means exhaustive of all contributions, especially the intermittent, smaller stand-alone support.

All project activities will begin in 2020, except for on-going projects supported by organizations including USAID, Save the Children School Feeding, UNFPA Curriculum Development, UNESCO Teacher Training with ICT emphasis at the RTTIs, UNICEF's Teacher Training Clusters, and the GPE supported Early Childhood Community based approach in several counties, etc. The sum of the UN Group investment was significant, though not specifically aggregated in this report.

A CATELOG OF THE 2018 / 2019 RESOURCE MOBILIZATION AND PROGRAMS

The Ministry of Education is pleased to report that during the past 16 months, resources were successfully mobilized by the Ministry of Education through its development partners to address government development agenda. Below is a breakdown of resources mobilized.

- 1.1 GPE 100% Grant of US\$11.1 Million for Early Childhood Education (ECE)
- 1.1.1 We pay tribute to the recent past leadership of the Ministry of Education, who initiated and pursued to near conclusion the grant of US\$11.1m(Eleven Million One Hundred Thousand United States dollars) before the inception of this administration. This amount

(US\$11.1) was fully committed by the Global Partnership for Education (GPE) for investment in Early Childhood Education development exclusively targeting six counties: Bomi, Rivercess, Maryland, River Gee, Sinoe and Grand Kru. While the direct beneficiaries are in the counties designated, offshoots from trainings and specific capacity development shall benefit the other counties by extension. We are however pleased to note that the finalization of the grant and its effectiveness were realized by this administration in 2018. The tenure of this grant shall be four years beginning 2018 and ending 2022.

- 1.1.2 Increased access to Early Childhood Education was made possible through support from partners. The Ministry has rehabilitated several Early Childhood Education level schools in various counties across the country with emphasis on providing better wash facilities.
- 1.2 IDA / World Bank 100% Grant of US\$47.0 (Forty-Seven) Million United States dollars for Secondary School Development in the 15 counties of Liberia.
- 1.2.1 This grant supports the construction of three (3) Model High Schools to decongest and control class size in three rural cities with huge population of school age children. The grant will also rehabilitate all Public Secondary Schools throughout the country and expand 25 Junior Secondary Schools to Senior High Schools so that all Education Districts shall have at their doorsteps a minimum of one Senior Public Secondary School where there is currently none.

The project, IMPROVE RESULTS IN SECONDARY EDUCATION (IRISE) has a four-year life, structured jointly by the Ministry of Education and the World Bank to be completed in 2023. In addition to construction, the IRISE project has components for increasing opportunities for 3000 girls to transition to, and complete secondary school, support Teacher Training and the provision of textbooks among other efficiency initiatives.

1.2.2 Word Bank Grant of US\$2M (Two Million) HR and other Critical System Development in Education. The Project duration is four (4) Years 2020 to 2023)

The US\$2 Million Grant is an integral part of a system development in Government specifically dedicated to the Education Sector. The project is aimed at improving Upstream and Downstream Public Financial Management System (PFM), Service Delivery in Education as well strengthening foundations for improved PFM in the Education Sector.

By the end of the project, MoE HR data base would be fully checked and reconciled through verification of HR personnel records at the public schools. MoE HR database would be established with twelve (12) critical fields and be populated using existing database and the personnel management. This will boost teachers' monitoring and enhance the Ministry's financial efficiency.

1.3 TVET DEVELOPMENT GRANTS (Euros 26 Million & US\$ 6.2 MILLION)

The above comprises three (3) grants; Euros 20 Million; Euros Six (6) Million, from the European Union, and US\$6.2 Million from the Swedish Government.

The deliverables under these grants include the rehabilitation and equipment of Multilateral High Schools and Skills Training Centers in Liberia. Specific institutions to benefit include the William V. S. Tubman High School and Monrovia Vocational Training Center (MVTC) in Monrovia, Booker Washington Institute (BWI) in Kakata, Zwedru Multilateral High School in Zwedru, Sinoe Multilateral High School in Greenville, Cape

Palmas High School in Harper and the Harbel Multilateral High School. Other skills training centers to benefit are Clay in Bomi County and Tumutu in Bong County among others. Each of these facilities shall be fully equipped with 21st Century TVET equipment of outstanding quality and capacity. Specific details of the programs are presented below.

1.3.1 European Union Grant of Euro 20.0 (Twenty) Million

The above grant is approved for the development of Technical & Vocational Education and Training (TVET) in several locations across the country. The Project will cover both formal and informal short-term skills training for out of school youths. The formal programs will be implemented by MOE, While the informal programs are implemented by the Ministry of Youth & Sports.

The grant considers all existing vocational and technical schools built in the 1960s (William V. S. Tubman high and BWI) and Multilateral High Schools built in the 1970s for skills education. In spite of its history, this Grant was applied for by the Ministry in 2018 during the tenure of the current administration. Nevertheless, terms were negotiated, funds committed, and project initiated effectively in 2019. The life of this project is 5 years as of 2019, barely ending the tenure of this Government First term, as negotiated

1.3.2 EU TVET Secondary Grant II Euros 12 (Twelve Million) for Formal & Informal Training

In addition to the 20 Million, the Ministry of Education applied and along with the Ministry of Youth & Sports jointly negotiated for a Euro 12 (Twelve) Million Grant for the Youth Rising Project. The Grant is meant to expand the original TVET project for the rehabilitation and equipping of three other formal and informal TVET facilities not covered by the original 20 Million Euros Grant.

The 12 Million Euros Additional Financing was allocated two ways by the EU Mission in Liberia: Six (6) Million Euros to the GIZ Liberia Program using a private sector strategy, and Six (6) Million Euros to expand the activities of the original program, to include additional TVET institutions, formal and informal. The additional Grant has the same implementation period as the original, and as well considers the same types of skills training schools. This additional Grant while already signed into an agreement, is yet to become effective.

1.3.3 Swedish Government TVET 100% Grant US\$6.2 (Six Million Two Hundred Thousand United States dollars) exclusively for the Rehabilitation and Equipping of Voinjama Multilateral High School.

The Swedish Government intervention of US\$6.2 Million United States dollars grant came as a result of an application by the Ministry of Education and UNIDO. The intent of this grant is to rehabilitate, reconstruct, and equip the Voinjama Multilateral High School in Voinjama City, Lofa. The Swedish Government's contribution was a response to the Government's concerns that the original Grant for TVET by the EU Million in Liberia was inadequate to cover Voinjama Multilateral due to the extensive destruction of its facilities during the civil war.

1.4 USAID Grant in Kind; A Five (5) Year Program for AQE & Read Liberia Projects, with Component for Primary School Renovation, expiring December 31, 2020.

The United States Agency for International Development (USAID) has been supportive of Liberia's Education development agenda, with significant investment in the programs such as the Accelerated Quality Education (AQE) Program intervening in six (6) counties,

targeting nearly 48,000 out of school and overage children. The project covers basic renovation of nearly 79 Public primary schools in three counties, intended to improve learning environment. Read Liberia also operates a program focused on improving Reading efficiency and Numeracy skills of Primary schoolchildren in the counties.

1.5 SCHOOL FEEDING & NUTRITION GRANTS FROM VARIOUS FUNDING SOURCES (US\$90 Million FOR 4 YEARS)

School Feeding interventions, traditionally, have immense benefits for enrolment, retention and health. The Ministry of Education is engaged with four major development partners on this component of education advancement. The World Food Program (WFP), Save the Children (USA), Mary's Meals and ZOA are together intervening in a number of Schools in 13 thirteen counties.

1.5.1 The World Food Program (WFP) Grant (US\$50.2 Million for 4 Years)

The grant of US\$50.2 Million was approved in 2019 and operationalized with an agreement signed in the same year by the Ministry of Finance & Development Planning and the World Food Program.

WFP interventions cover seven counties (Maryland, Nimba, Grand Kru, Sinoe, Gbarpolu and Grand Bassa), 477 schools with **111,026** beneficiaries.

The Grant was based on a proposal developed jointly by the WFP Liberia Country Office and the Ministry of Education's Division of School Feeding. The project, document "Country Strategic Plan, (CSP) 2019-2023" seeks to guarantee school feeding, improved food security, health and nutrition, in the context of pillars 1,3 and 4 of the Pro-Poor Agenda for Prosperity and Development (PAPD). The grant emphasizes homegrown food supplies as a way of creating incentives for small holders and increase food production.

1.5.2 SAVE THE CHILDREN 5 YEAR GRANT (US\$30 Million)

The 5-year grant became operational in 2018 and will end in 2023. SAVE THE CHILDREN interventions cover four counties (River Gee, Grand Gedeh, Rivercess and Grand Bassa), 220 schools with 40,000 beneficiaries.

1.5.3 Mary's Meal Grant of US\$7 Million for 2018/2019 and 2019 / 2020

Mary's Meal funding sources are philanthropies, and the amounts committed are not necessarily long term, but regular in varying amounts.

MARY's MEAL interventions cover four counties (Grand Cape Mount, Bomi, Montserrado and Bong), 512 schools with 114,141 Beneficiaries.

- 1.5.4 ZOA Grant of US\$782K_enables it to intervene in Margibi County in 21 schools with 3,200 beneficiaries.
- 1.6 The Dubai Cares School Health Intervention Grant (US\$2 Million)

The Dubai Cares Health intervention covers four counties (Bong, Maryland, Sinoe and Grand Kru), in all schools across these counties. This is a three-year grant, which was launched in November 2018, became operational in 2019, and will last till 2021.

The Grant is exclusively dedicated for School Health interventions supporting deworming and vision screening activities. This intervention seeks to support efficiency in learning for

children suffering, and likely to suffer, these deficiencies. The grant was applied for by MOE through the International NGO, Sight-savers Liberia Office.

1.7 Big Win Philanthropy's Education Delivery Unit Grant (US\$0.5 Million)

The Big Philanthropy, a long-time partner of the Ministry of Education, has supported the Education Sector in several ways over the last 5 years. Funding from this Partner has been dedicated mainly to the upkeeping of the Education Delivery Unit of the Ministry and teacher's competency testing and validation. Funds are replenished by the Board of this Philanthropy every six (6) months upon application, reviewed and approval.

1.8 Nuffic Curriculum Improvement Grant (Euros 200,000)

The Ministry of Education in collaboration with the Dutch University, Hanze University of Applied Sciences' Schools of Healthcare and Nursing, received euros 200,000 to embark on a two-year project geared towards the development of a national curriculum and policies that incorporate preventive health, personal hygiene and SRHR at the technical and vocational level. The Grant which is provided by the Netherlands Organization for Internationalization in Education (NUFFIC), entails a tailormade training for the incorporation of preventive health, personal hygiene and SRHR into national technical and vocational training curriculum. During the year in review, the project supported the training of 6 Liberians in the Netherlands to equip them with the required skills to develop and monitor the pilot of the curricula in three TVET schools across the country. The final module for the TVET curricula will not only cover socio-cultural aspects related to preventive health and SRHR, but also, will address specific tools and methods that will help teachers communicate sensitive sexual and reproductive health issues to students. The syllabi from this curriculum will be open source that will be placed on the MOE website, and allows interactions and feedback mechanisms between the public and the MOE.

1.9 The United Nations Organization Support to Education in Liberia

The UN Organization's interventions in the Education Sector of Liberia vary based on specific work plans. The UN's support to the education programs of the Government in the last two years (2018 & 2019) has been a continuation of the Group's 5-year plan for the sector, which ended in 2019.

In support of the PAPD, the UN Group in collaborations with several government ministries and agencies has developed and launched a new 5-year plan covering 2020–2024. While we are assured of UNs continuous support, the actual amounts of such commitments, other than the US\$50.2 Million from the WFP School Feeding Strategy, is yet to be determined. Past support for Education from the UN Group suggests nearly US\$10 Million for the last 5-year Country Program.

All counterpart programs are geared towards satisfying the targets identified by the Government in its five-year development plan, the PAPD, launched in November 2018 and other specific considerations required in education such as sexuality, girls and other inclusive education programs.

1.10 GOVERNMENT OF LIBERIA AVERAGE ANNUAL INVESTMENT IN BASIC & SECONDARY EDUCATION

The Government of Liberia annual support (including 2019/2020 budget year) to Basic and Secondary Education is averaged at US\$43 Million.

Other than specific development projects funded by partners, the Government of Liberia's investment in education is the largest per annum, covering critical recurrent expenditures for the sector. The Government's annual investment covers primarily personnel cost representing nearly 85% of indicated appropriation. Part of the annual budget of the Ministry for last two years has been allocated to the payment of WASSCE and WAEC fees for all 12th and 9th grades students nationwide.

In an effort to boost enrollment at the post-secondary level, the Government of Liberia also introduced budgetary allocation for the free tuition program in all public universities and community colleges since first semester 2018/2019 academic year. The Government also fully funded the development of a Digital Registration Platform at the University of Liberia (UL) in 2018 / 2019 thereby creating efficiency, reducing instability and anxiety for timely and orderly completion of registration at the UL.

2.0 MOE Performance Affecting Quality Education in 2018 /2019

2.1 The Teachers Factor

Quality and relevant education remain key concerns for Liberia's forward march from mess to best. While resource constraints and other related challenges are present, teachers' issues and remedies remain an ultimate concern. The lack of commitment to the profession, inadequate field supervision, and attitude towards work - uncontrolled absenteeism, abandonment, and the general lack of ownership in government service across the aisles - are of severe concern. Several field visits at intervals by senior personnel of the Ministry in 16 months, confirmed some of these assertions.

While the issue of teachers' competence, abilities and problems experienced with remuneration processes share some of the blame for poor learning outcomes, the overriding concern is that of commitment to the profession. A committed teacher with just the basic qualification can, in most cases, be developed to scale through couching and continuous professional developments (CPDs) as well as other interventions. The key concern here is the commitment to teach, especially in the case of public schools. The root causes for students' underperformance has been investigated more thoroughly, and one of the known reasons clearly identified is the teacher factor, all other reasons notwithstanding.

Commitment to teach is defined by actual time spent in the classroom with the students, compliance with curriculum, orderly lesson planning, and ability to source and prepare relevant materials, among others. The poor performance of public-school students is a clear reflection of a combination of causes, as were indicated, lack of teachers commitment, school leadership abilities, and parental interventions take the most blame.

2.1.1 TO GUANRANTEE QUALITY IN LEARNING (Significant Deliverables in 2019):

a) **Developed Program to Account for Teachers Work time and to Control Absenteeism.** A personnel audit was 80% completed in 2019 with a GPE DLI reimbursable commitment. Strategies to track teachers at places of assignment and action plans to promptly remedy defects in behavior are developed. The professional and political will, are guaranteed under this strategy going into 2020.

b) Established a Center of Excellence for Licensing Teachers

The Center of excellence for teacher licensure was established in 2019 to enable school administrators efficiently tracked and hold teachers accountable for professional conduct, with sanctions criteria for gross breach of professional duty such as abandonment of classes, teaching without results, and other inappropriate behavioral conduct.

c) Developed and Launched a Three Pathway Curriculum in 2019

Competency-Based Curriculum for Grades 1 - 12 which was funded by the Government of the Kingdom of Sweden through UNFPA, has been developed and launched by the Ministry of Education. This curriculum is responsive and relevant for teaching life skills and early career definition. The new Curriculum (Grades 1 through 12), has significant deviation from the traditional content-based to career frenzy competency-based, responsive to the needs of all categories of post-secondary education programs, skills development, STEM enthusiast, humanities, etc.

d) Developed and Launched A Five Level Curriculum for effective management of Childhood Classrooms

The Ministry of Education with funding from UNICEF has completed, tested through pilot, approved, launched and roll-out in 2019 a new curriculum for ECE schools. The Center of Excellence for Curriculum at the Ministry of Education took the Lead on these related subjects.

e) Repeated intermittent Teacher Training Programs in 2018 / 2019

Several organizations supporting the education sector including USAID, UNFPA, UNICEF, UNESCO and local NGOs funded and undertook repeated intermittent teacher training programs in 2018/2019 and expected to continue into 2020. The overall framework covered proficiencies in the use of revised curricular, Early Childhood emphasis, ICT as a tool for teaching and the regular drill in pedagogy and classroom administration, sexuality education, and other specifics relevant for efficiency and enhancing quality in the classroom. Taken together, nearly 10,000 teachers have benefited so far from several short-term programs offered under the sponsorships mentioned supra.

f) Specific to the USAID Flagship Education Programs

The Accelerated Quality Education (AQE) Program is a teacher's development initiative aimed at enhancing special skills for teachers encountering over-aged students with new methods.

2.1.2 WASSCE INTERVENTION INITIATIVE FOR 12th GRADERS LAUNCHED 2018/2019: Experiences, Outcomes and Lessons Learnt

a) In consonance with the President's vision to improve WASSCE scores for secondary school students, the MOE for the first time launched a nationwide WASSCE tutorial intervention program and administered a MOCK exam in two subjects for all high schools in Liberia. In support to this initiative, coupled with the desire to alleviate economic hardship on parents, the Government through the MOE paid 2018/2019 WASSCE fees for all 12th grade students across the Country and has planned to also pay for the 2019/2020 academic year. As a result of these three interventions and other personal initiatives, the overall performance from the 2019 West African Senior Secondary Certification Examinations (WASSCE) was the more impressive than 2018.

- b) The two key subjects, English and Mathematics, were outstanding in 2019. For example, about 2,300 students obtained credits in English Language in 2019 compared to 508 students in 2018; and about 2,549 students obtained credits in Mathematics in 2019 compared to 197 in 2018. Other subjects registered similar trend. The 2019 result in Mathematics puts Liberia third in Mathematics on the 2019 WASSCE ranking among the five Anglophone countries in the sub-region.
- c) The WASSCE Intervention will continue in 2019 / 2020 academic year, but with emphasis on Public Schools only due to resource constraint.

2.1.2 Looking Forward with Concern for Relevance, Quality & Equity: 2019/2020

- a) Relevance: A 21st Century TVET Curriculum under consideration; Funded by the EU 20 Million Euros five (5) year TVET Education Development project in Liberia. The specialized curricular will be completed year two (2020) of the project life to re-frame the foundation of vocational and skills education in Liberia for students in formal secondary school and out of school youth without skills for employment.
- b) **Revised Curricular for Teachers "C" & "B" Certification Programs** substantially to be completed in 2020, with the "C" program being expanded to 12 months, beyond the traditional ten (10) months. Justification for extension is informed by the unsatisfactory results of high school graduates, considered unequipped with sufficient content knowledge for Post-secondary Teachers training. Once tested at the RTTIs, the revised curriculum will become mandatory for all private teacher-training institutions in Liberia.

c) An Intensive In-service Teacher and School Leadership Training Program

The MOE with a four-year funding from the GPE, in 2019 launched an in-service teacher training and school leadership development program for teachers and principals in public schools. The program which is implemented through the RTTIs with technical assistance from private sector organizations has mainstreaming inclusive and special education as a key component, and seeks to enhance efficiency at all levels in primary and ECE programs. The project is mainly focused on six counties (Bomi, Grand Kru, Maryland, Rivercess, River Gee & Sinoe) as a way of promoting equity in the distribution of qualified teachers and school administrators across Liberia. For sustainability, the project aims to upgrade the capacity of the RTTIs to address the insatiable demands for qualified teachers in ECE and primary levels nationwide. This intervention targets 3,000 principals and teachers over the period of four years (2019-2022).

d) Training of 100 TVET Teachers Abroad

The Ministry of Education in collaboration with UNIDO, as implementing partner for the EU, has completed screening and selection of 61 out of 100 prospective TVET teachers for sponsorship in two outstanding TVET Universities in Africa. These teachers will be trained and deployed between 2020 and 2021 at the rehabilitated TVET schools covered under the EU project. The Government of Liberia through the Ministry of Education is processing the employment of these would be TVET teachers prior to their departure for training, consistent with the terms and conditions of the Grant Agreement of 2018 with the EU. In the latter part of 2020, the remaining 39 candidates will be screened, selected and sent to join their counterparts.

d) Continuous Teachers Development at RTTIs

Through GOL funding, the curriculum for the "C" and "B" Certificate levels at the RTTIs is being revised, and will become effective in 2020.

e) The World Bank IRISE Project - Teachers Development for Senior Secondary Schools

The above project is working on the expansion of ECE teachers training in Liberia to the level of bachelor degree. Led by the University of Liberia and William V.S. Tubman University, the curriculum revision process at the University of Liberia is near completion.

2.2 SPONSORSHIP FOR BILATERAL FOREIGN STUDIES PROGRAMS AND LOCAL SCHOLARSHIPS

2.2.1 Bilateral Scholarships Program

The Government of Liberia through the Ministry of Education remains committed to maintaining the path of reforming the education sector and supplying relevant skills and expertise to the economy and work force of Liberia, exploring opportunities for capacity development, external and internal. Sponsorships programs for such initiatives are in place to ensure that they become a reality.

In recent times, current sponsorship programs have been awarded to both tertiary and technical and vocational students to include bilateral study programs with Morocco, China, Botswana, and India among others. The program has also been now expanded to include Hungary offering 10 graduate level scholarships; and France, 20 scholarships for young people in TVET to study in Abidjan.

The original bilateral scholarship partners provided 32 fully funded scholarships in 2019 for Masters and PhDs at English Speaking Chinese Universities; 16 completed graduate studies in various disciplines and returned home during the same period. 32 students selected for study in China have since left while 16 slated for Morocco, are scheduled to depart early 2020. The program for Morocco is partially funded covering tuition, fees and stipend towards living expenses.

2.2.2 Local Scholarship Program (Government of Liberia Sponsorship)

The Government of Liberia provided sponsorship for nearly 1,000 students in the undergraduate and graduate programs at various local universities. Significant of the Government of Liberia sponsorship is President Weah's Flagship Program "the free tuition" sponsorship at all public universities and colleges. This program has gained steam, and as a result, enrollment of students increased by 30% in 2019 at the University of Liberia.

II) OPERATIONAL PLANS 2019 / 2020

Following the successful resource mobilization in 2019, the Ministry of Education is assured of going forward on its result based operational plan with measurable indicators.

With support from the EU, the MOE in collaboration with MOYs and UNIDO recruited 61 persons to be trained as TVET teachers. With the intend to professionalized the TVET sector, Universities are been identified in Kenya and Zambia to provide training for these TVET teachers, after which they will be deployed in the five Multilaterals schools across the country. Additional 40 TVET teachers were recruited to be send abroad for TVET teacher training.

3.0 STRENGTHENING GOVERNANCE AT ALL LEVELS.

- 3.1 Policies, regulations and processes for governance
- 3.1.1 The Ministry of Education completed several policies to strengthen its administration of the sector. The government developed polices with specific objectives. The policies development initiatives were jointly sponsored by the government and other partners and stakeholders based on request from the MoE.

A catalog of the key policies developed by the Ministry in 2018 / 2019:

- a) School Grant Policy and Guidelines
- b) Policy on Inclusive Education
- c) PTA Policy
- d) School Feeding and Nutrition
- e) Policy on School Health Administration
- f) Girls Education Policy
- g) Policy on Effective National Service Program
- h) School Grading & Quality Assessment Tool
- i) Policy on Licensing of Teachers & School Leadership (In Progress)

3.2.1 Grading and Quality Assessment Exercises 2010 / 2020

The Ministry of Education, for the first time in the history of the Republic of Liberia, will conducted school assessment and grading using a consolidated digitized tool that classifies all schools into categories (A to F). The former shows the highest score while the latter shows the lowest score. The exercise will be preceded by policy on school fees determined by the category of the school based on the grading score obtained from the school grading analysis.

Current EMIS statistics at the MoE shows that there are an estimated 1.4 million students, 55,000 teachers and 5,500 schools across the country.

3.3 HUMAN RESOURCE MANAGEMENT ISSUES

3.2.2 HR System Development

The Ministry has completed the digitization of its Human Resource Management System (HRMIS) as well as provided training for all county human resource officers. Completion of the HR system development exercise will be completed upon the provision of equipment and rollout of the system in all 15 counties (16 School Counties). The MoE is setting up a Human Resource Management Information System (HRMIS). The system is intended to improve data management and administration by providing a user-friendly working tool for data sharing from the county level as well as effective ways of coordinating personnel action notices of the entity.

3.3.2 Closing Supplementary Payroll (Effect of Harmonization)

The harmonization exercise facilitated the removal of at least 3,000 supplementary teachers and placed them on the regular MoE payroll registry. Salaries are being adjusted over time to commensurate with qualification. Currently, the minimum wage rate for teachers is at least 100\$ USD. As a minimum, no teacher on Government of Liberia payroll earns less than US\$100 dollars.

3.4 Improving the Financial Management & Reporting Processes of MOE Through Automation

As part of the action-steps to reforming the financial processes and improving reporting on both government funds and donor-funded projects, the Ministry of Education has completed the automation of its internal financial management and reporting structure using QuickBooks Enterprise software. The transition to an automated financial system resolves all challenges with transparent and accurate reporting of separate projects by the source of funding. The system has given the Ministry the potential to transact, document smoothly, and at the same time, provide timely financial reports to relevant parties.

3.5 HIGHER EDUCATION

3.5.1 Developed, Reviewed and Approved A New Policy for Licensing & Accreditation of Institutions of Higher Learning (Colleges & Universities)

The Minister of Education, as Chair of the Board of Commissioners of the Commission on Higher Education (NCHE) of the Republic, sanctioned a major reform in the Governance process in Higher Education. In this regard, the Secretariat of the Commission as of 2019 developed a policy manual with several variations, disaggregating the process of licensing an institution from the point of establishment and continue throughout the life of the institutions. The Policy manual upon printing and circulation to the office of the President of Liberia shall be officially launched in 2020 at a program befitting the document.

Inclusive Education

In support to Inclusive Education, the World Bank provided funding to the Government of Liberia through the Ministry of Education to assess and fill in key knowledge gaps in disability inclusion in Liberia as a critical step to help the Government implement the Inclusive Education policy and address critical areas of needs; notably, the Ministry has approved the policy on Inclusive Education. Additionally, the Ministry of Education completed the conduct of training on Special & Inclusive Education mainstreaming 40 Teachers as add on to improve teachers' abilities to identify students with special needs.

Civics Education

The Ministry of Education has, with immediate effect, reinstated the teaching of *Civics Education* in the curriculum of schools across Liberia. This measure caters to major fundamental steps toward nation building, citizenship and patriotism. It can be recorded that in the past, civics helped fixed some of those behavioral problems and gravitate our young minds to love country first.

Chapter 1: Program Areas

Introduction

This section catalogues **two hundred sixty-five** activities under thirty-**nine** priority targets for the reporting period (2018/2019). Of the total activities planned, ninety-seven (97) were accomplished which constitute 37%, while fifty-eight (58) constituting 22 % are ongoing and **one hundred ten (110)** pending constituting 41% of the total number of activities earmarked. These achievements were attributed to the commitment and contributions made by stakeholders and development partners within the Sector. Accordingly, data on the various program achievement rates indicate that the best performing program unit during the period under review is Education Management & Accountability with a **62% achievement rating** matched against total planned activities, while the least performing program unit is STEM, TVET & Inclusive Education with a rating of **3%.**

Meanwhile, the recorded achievement ratings of the MoE during the reporting period can be attributed largely to a number of factors, including limited funding from GOL and development partners to support program implementation and inadequate logistics. However, some level of coordination and information sharing between the MoE and development partners were contributing factors that led to the gains made. Concerted and intensive efforts are required to strengthen ongoing processes within the Sector to improve service delivery.

1.1 Program Areas

Program areas for 2018/19 included the following:

- 1. Early Childhood Education (ECE)
- 2. Students Personnel Services (SPS)
- 3. Basic and Secondary Education (BSE)
- 4. TVET, STEM and Inclusive Education
- 5. Higher Education
- 6. Teacher Education & Management (TEM), and
- 7. Education Management & Accountability (EAM)

Early Childhood Education (ECE)

During the period under review, the MoE planned to increase access to Early Childhood Education through advocacy, awareness and construction of additional twenty ECE schools with WASH infrastructure in underserved communities. In an effort to improve quality, MoE planned to: (a) roll out ECE training and certification for teachers at the three RTTIs and other colleges and universities; and (b) improve ECE service delivery, especially in underserved communities. Finally, to address ECE governance, MoE planned to strengthen inter-sectoral collaboration among line ministries, agencies and partners for integrated ECE/ECD service delivery; provide improvement grants to ECE schools; and develop Early Learning Development Standards (ELDS) to measure learning outcomes. The table below shows performance achievement in access, quality and governance. See appendix 1 for performance status details as obtained from the bureau.

Taking stock of intervention in the Bureau, four key program targets were earmarked by the Bureau of the Early Childhood Education under the core areas of education delivery (Access, Quality and Governance). The four key program targets and accomplishments were: 1. conduct of ECE advocacy awareness and outreach to families and communities (achieved:); 2. Rollout ECE training and certification at all levels (achievement: 350 ECE teachers and 360 caregivers

trained and certificated in ECDSTEP; 90 adolescent girls trained as teacher-assistants for EPAG program; 157 in-service ECE teachers trained at WRTTI; 572 schools qualified for school improvement grant; distributed 1,336 sets of ECE teacher planner and curriculum; established and staffed 40 community-based ECE centers in 6 counties.); 3. Strengthen inter-sectoral collaboration among line ministries and partners for integrated ECE/ECD service delivery (achievement: 4 quarterly inter-sectoral consultative meeting held); and 4. Provide school improvement grants to ECE schools (Achievement: 40 community-based ECE centers established).

Table 1.1A: Early Childhood Education (ECE) Achievements

| ACCESS | | | | |

| and communities | Conducted needs assessment and | | | |
| about the value of ECE and good parenting | recruitment of 60 caregivers in 20 communities in | | | |
| skills | 6 counties (Bomi, Rivercess, River Gee, Maryland, Grand Kru & Sinoe) | | | |
| | In collaboration with EPAG-PIU/CAP, 210 adolescent | | | |
| | girls were identified and shortlisted. | | | |
| QUALITY | | | | |
| PLANNED TARGET | PERFORMANCE STATUS | | | |
| Roll out ECE training and | 40 community-based ECD centers provided support | | | |
| certification at all levels | in the form of staff incentives, stationery and sanitary materials | | | |
| | 157 in-service ECE teachers trained at WRTTI | | | |
| | | | | |
| | | | | |
| | 572 schools qualified for the school improvement grant. | | | |
| | 1,336 sets of ECE Teacher Planner and Curriculum sets | | | |
| | distributed during several training-distribution linked activities in | | | |
| | five counties (Grand Gedeh, Bong, Margibi, Grand Bassa and Montserrado) | | | |
| | Home-based Adult Literacy Curriculum rolled out in six communities | | | |
| | in Montserrado and Margibi Counties | | | |
| | 60 caregivers recruited for community-based ECD center in 20 | | | |
| | underserved communities in six counties (River Gee, Maryland, | | | |
| | Grand Kru, Sinoe, Rivercess and Bomi). | | | |
| | 90 adolescent girls trained as teacher assistants for EPAG | | | |
| | Program in Montserrado County | | | |
| | 300 ECD caregivers trained and certificated in ECDSTEP | | | |
| | (second level of the ECE Professional Development Framework). | | | |
| | 350 ECE teachers trained and certificated in ECDSTEP | | | |

| GOVERNANCE | |
|---|---|
| PLANNED TARGET | PERFORMANCE STATUS |
| Strengthen inter-sectoral collaboration among line ministries and partners for an integrated ECE/ECD service delivery | Quarterly inter-sectoral consultations meetings held with key stakeholders |
| ProvideSchoolImprovementgrantstoECE schools | With support from UNICEF, 40 community-based centers provided with needed support |
| | 572 School Management Committees (SMCs) trained to manage school improvement grant and opening of qualified schools bank accounts ongoing |

| Pillar | Activities Completed | Activities Ongoing | Activities Pending | Total Activities |
|------------------|-------------------------|-----------------------|-----------------------|---------------------|
| Access | 3 | 2 | 8 | 13 |
| Governance | 2 | 1 | 2 | 5 |
| Quality | 7 | 9 | 8 | 24 |
| Total | 12 | 12 | 18 | 42 |
| Performance Rate | 29% | 29% | 42% | 100% |

Table 1.1B above shows that Early Childhood Education planned forty-two activities to address access, quality and governance. Of the forty-two activities planned, thirteen earmarked address access, twenty-four address quality, and five address governance. During the period under review, the thirteen activities planned to address Access, three were accomplished, two ongoing and eight pending. The twenty-four activities planned to address quality issues under Early Childhood Education program, seven were accomplished, nine ongoing and eight pending; while for Governance, two were accomplished, one ongoing and two pending. On the overall, of the forty-two activities planned twelve activities were accomplished, twelve ongoing, and eighteen pending. From the statistics above, performance rate for Early Childhood Education program during the period under review is **29%.**

Students Personnel Services

The MoE planned to improve student's well-being by increasing access to school health services and construction of WASH facilities, as well as train WASH focal persons in schools at all levels. Additional targets set by the MoE were to harmonize IEC/BCC materials, vision screening, deworm school-age children, and scale-up delivery of nutrition services. Moreover, the MoE planned to expand career guidance and psychosocial counseling in order to improve quality performance of students, and engender increased survival rate. In an effort to strengthen governance within the Students Personnel Services, focus was placed on improving partnership and stakeholder's collaboration, as well as develops couple of strategic policy documents during the period under review. The table below shows performance status of Students Personnel Services program aimed to address issues access, quality and governance.

Tracking progress of interventions by Student Personnel Services Bureau, five key program targets with forty-eight operational activities were planned to address Access, Quality and Governance. The five key program targets and accomplishment were:

1. Improve school health and student well-being at all levels (Achievement: 10 school sensitized in environmental safety; established 150 school clubs; trained 466 WASH focal persons; trained 1920 teachers in sexuality education; vision screened 34,021 schoolchildren in two counties; dewormed 63,871 school-age children; produced and printed harmonized sexuality education IEC/BCC materials.);

2.Construct WASH facilities in schools at all levels (Achievement: 150 schools provided full WASH facilities);

3. Scale-up delivery of nutrition services in schools (Achievement: 262,227 school children benefiting from daily hot meals in 1,185 schools; 1,135 schools certified to benefit from daily hot mail in subsequent year; 5000 adolescent girls receiving take home rations across fourteen counties; and trained 39 county school monitors).

4. Expand career guidance and psychosocial counselling in schools (35 National master trainers trained as counsellor; Produced career guidance and psycho-social counselling policy and training manual). 5. Improve community engagement skills for PTA leadership in schools (Finalized national parent, community engagement and dropout prevention policy awaiting SMT approval).

| ACCESS | | | | | |
|---|--|--------------------|--|--|--|

| Performance Rate | 44% | 27% | 29% | 100% |

Table 1.2B: Students Personnel Services Performance Statistics

Table 1.2B above shows that Students Personnel Services planned forty-eight activities focused on addressing issues of access, quality and governance. Of the forty-eight activities planned, eleven activities were identified to address access, twenty to address quality issues, while seventeen activities were focused on governance issues. The activities planned to address access, three were accomplished, three on going and five pending. Regarding quality, the twenty activities planned eleven were accomplished, five on going and four pending; while under governance, seven activities were accomplished, five on-going and five pending. On the overall, of the forty-eight activities planned, twenty-one were accomplished, thirteen on going, and fourteen pending. From the statistics above, performance rate for Students Personnel Services program during the period under review is **44%**. See appendix 2 for performance status details as obtained from the bureau.

Basic & Secondary Education

Interventions to address access under Basic & Secondary Education were focused on providing learning opportunities for overage learners, out-of-school children and young people, using Alternative Education (AE) program, as well as the creation of safe, conducive and gender-friendly teaching/learning environment as strategies. To address quality issues under Basic & Secondary Education, MoE planned to provide continuous professional development for AE teachers, improve Early Grade Reading (EGR) instructional methodology, and increase girls transition and completion prospects at senior secondary level. Along these lines, the development of National Literacy and Numeracy Assessment Systems for Grades 3 and 6 was planned, as well as to improve 12th Grade students' performance in WASSCE. In addition, emphasis on governance was placed on strengthening school leadership at Basic & Secondary levels, including building the capacity of the AE Division to manage AE programs. The table below shows performance achievement of the Basic & Secondary Education program designed to increase access, and improve quality and governance.

Also, eleven key priority targets and fifty-seven activities were planned under Access, Quality and Governance. The eleven priority targets and accomplishment were: 1. Create safe, conducive and gender friendly teaching/learning environment (achievement:); 2. Provide learning opportunities for overage learners, out-of-school children and young people through Alternative Education (AE) programming (achievement:); 3. Provide continuous professional development for AE teachers, facilitators and school administrators (achievement:); 4. Strengthen the capacity of AE Division to manage AE programs (achievement:); 5. Improve 12th Grade students' performance in

WASSCE (achievement:); 6. Create safe, conducive and gender friendly teaching/learning environment (achievement:); 7. Strengthen School Leadership at Basic and Secondary Levels (achievement:)

| ACCESS | | |
|--|--|--|
| PLANNED TARGET | PERFORMANCE STATUS | PARTNERS |
| Create safe, conducive and gender friendly teaching/learning environment | (1) With support from Save the Children/USDA, take-home ration was provided for 14,442 girls in 220 schools in four counties (Rivercess, Grand Bassa, River Gee & Grand Gedeh); (2) With support from WFP/Master Card, take-home ration was provided for 4,000 girls in 176 schools in four counties (Maryland, Grand Kru, Gbarpolu & Nimba) | USAID/AQE GPE UNICEF SAVE THE CHILDREN/USDA WFP/MASTER CARD |
| | With support from SCI/USDA, expended Early Grade Reading (EGR) to 59 schools in two counties (Grand Gedeh and River Gee) | |

| Total | 24 | 10 | 23 | 57 |
| Performance Rate | 42% | 18% | 40% | 100% |

Table 1.3B Basic & Secondary Education Program Achievement Statistics

Table 1.3B shows that Basic and Secondary Education earmarked fifty-seven activities to address Access, Quality and Governance. Of the fifty-seven activities planned, four addresses Access, thirty-five addresses Quality, and eighteen addresses Governance. The four activities planned to address Access, all four were accomplished; whereas, of the thirty-five activities planned to address Quality, seventeen were achieved, five on going and thirteen pending. While under governance, three of the eighteen activities planned were achieved, five on going and ten pending. On the overall, of the fifty-seven activities planned twenty-four were accomplished, ten on going, and twenty-three pending. From the statistics above, performance rate for Basic & Secondary Education program during the period under review is **42%.** See appendix 3 for performance status details as obtained from the bureau.

STEM, TVET & INCLUSIVE EDUCATION

In an effort to improve access to STEM, TVET and Inclusive Education, the MoE planned to rehabilitate, furnish and equip ten senior secondary schools to upgrade them to the standard of TVET institutions. Relative to quality service delivery, the MoE also planned to develop a competency-based TVET teachers training curriculum with inclusive education mainstreamed. As regards governance strengthening, the MoE planned to develop a national qualification framework for TVET programs, as well as strengthen EMIS capacity to gather real-time data on TVET. Table 4A below shows STEM, TVET & Inclusive Education program performance in STEM, TVET & Inclusive Education program data addressing issues of access, quality and governance in STEM, TVET & Inclusive Education programming.

Assessing performance status within STEM, TVET & Inclusive Education Bureau, four targets and thirty-three activities were planned to address Access, Quality and Governance. The four targets and thirty-three activities planned and accomplished were:

Improve the quality delivery of TVET programs

Achievement:

Developed Competency-Based TVET teachers training curriculum; conducted Labor market assessment for high demand areas of employment; 61 TVET instructors identified, tested and recruited for training; and 7 administrators identified and recruited for training.

Improve the quality delivery of STEM program within secondary schools

Achievement:

80 science teachers trained in five counties (Nimba, Grand Bassa, Margibi, Montserrado and Bong); Conducted needs assessment of 45 existing STEM labs in 15 counties.

Mainstream Special and Inclusive Education at all levels of the Education system

Achievement:

Conducted needs assessment in 3 Multilateral High Schools (Voinjama, Sinoe & Zwedru) for mainstreaming Special and Inclusive Education; Special & Inclusive Education issues incorporated within the TTIs C-Certificate Curriculum; Developed a training manual for Special & Inclusive Education; Rolled out ECE component of the Inclusive Education Training Manual

Strengthen EMIS and TVET capacity to gather real-time data on TVET

Achievement:

Conducted capacity needs assessment for TVET and EMIS staff to collect accurate TVET data; Standardized data collection framework developed for TVET programming; Conducted needs assessment in seven institutions (Sinoe Multilateral High, Zwedru Multilateral High, Voinjama Multilateral High, Cape Palmas High School, BWI, MVTC and Tubman High) to upgrade them to standard TVET level; Developed Assessment tools for (IEP) and (IESP) to be utilized by teachers at TTIs.

| Performance Rate | 3% | 36% | 61% | 100% |

Table 1.4B above shows that STEM, TVET & Inclusive Education program planned thirty-four activities to address issues of access, quality and governance. The thirty-four activities planned, six activities were identified to address access, nineteen address quality, and nine address governance. Of the six activities planned to address access, none was accomplished, none ongoing and all six pending. Whereas, the nineteen planned to address issues of quality, one was accomplished, seven ongoing and eleven pending; while for governance, one was achieved, four on going and five pending. On the overall, the thirty-four activities planned only one was achieved, eleven on going, and twenty-two pending. From the statistics above, performance rate for STEM, TVET & Inclusive Education program during the period under review is **3%**. See appendix 4 for performance status details as obtained from the bureau.

Higher Education

The National Commission on Higher Education (NCHE) planned to improve quality and relevance of Higher Education Institutions through harmonized curriculum with English West African Countries in STEM and other priority programs in line with Liberia's strategic and economic development programs. Also, the NCHE planned strengthening institutional governance by heightening Higher Education relevance, partnerships and accreditation. To improve efficiency and equity, the NCHE planned to realign financing of higher education, improve Higher Education Management Information System (HEMIS), and establish policy on Licensure for higher education institutions. For the period under review, the NCHE focus was directed to improve quality and governance. The table below shows performance status Higher Education program with focus on quality and governance issues.

Lastly, Higher Education planned three key targets to achieve through nine activities to address Access, Quality and Governance. Of the nine activities planned, two were accomplished, while two on going and nine pending.

Improve Higher Education quality and relevance through partnerships and accreditation (Achievement: Identified relevant STEM program areas: 1) Agriculture, 2) Engineering (Civil, Petroleum, Mining & Electrical), 3) Health Sciences (Medicine, Nursing & Midwifery), 4) ICT and 5) Education)

Realign financing of Higher Education to improve efficiency and equity (Achievement: Task Team constituted to develop policy on financing higher education (subsidy, scholarship and research); Policy Guidelines on licensing post-secondary institutions developed and endorsed)

Improved Higher Education Management Information System (HEMIS) (Achievement: NCHE updated HEMIS census framework)

Table 1.5B shows achievement statistics of Higher Education Program for the reporting period. Higher Education Program identified nine activities intended to address quality and governance. The nine activities planned, one that addresses quality was accomplished. Of the eight governance activities, one was accomplished, two on going and five pending. From the statistics above, performance rate for Higher Education Program Education program during the period under review is **22%.** See appendix 5 for performance status details as obtained from the Commission.

Teacher Education & Management

The MoE earmarked under the Teacher Education and Management component to increase access and improve the capacity of the Rural Teachers Training Institutes (RTTIs) in order to increase the proportion of trained and qualified teachers at all levels; and to strengthen the capacity of the Bureau of Teachers Education and Management to increase the proportion of trained and qualified teachers at all levels. The table below shows Teacher Education & Management Program performance achievement in access, quality and governance.

Tracing performance status within Teacher Education and Management, three key targets and twenty-five activities were planned to address Access, Quality and Governance. The three targets and activities planned and accomplished were:

Improve capacity of RTTIs to increase the proportion of trained and qualified teachers at all levels

Achievement:

Renovated and furnished three dormitory units at KRTTI; Constructed and furnished administrative building at KRTTI for B-Certificate program

Increase the proportion of trained and qualified teachers at all levels

Achievement:

Assessed teacher training facilities in Montserrado County; Recruited 200 In-service primary teachers for the C Certificate training program; Recruited 363 Pre-service primary teachers for the C-Certificate training program; Recruited 103 B-Certificate trainees and undergoing training at KRTTI; Conducted revision of Curriculum for Accelerated In-Service program; Developed Training Modules for Accelerated In-Service training; Renovated and furnished three dormitory units at KRTTI; Constructed and furnished administrative building at KRTTI for B-Certificate program

Improve capacity of Teachers Education Bureau to increase the proportion of trained and qualified teachers

Achievement:

Established coordination mechanism to ensure coherence in teacher training activities.

|---------|------------|-----------|------------|-------------------------|
| | Complete | S | Activities | |
| Pillars | d | Ongoing | Pending | Total Activities |
| | | | | |

| Access | 1 | 1 | 2 | 4 |
|------------------|-----|-----|-----|------|
| Governance | 4 | | 4 | 8 |
| Quality | | 2 | 11 | 13 |
| Total | 5 | 3 | 17 | 25 |
| Performance Rate | 20% | 12% | 68% | 100% |

Table 1.6B shows that Teachers Education and Management Program earmarked twenty-five activities to address access, quality and governance. The twenty-five activities planned, four-address access, thirteen-address quality and eight-address governance. Of the four activities planned to address access, one was accomplished, one on going and two pending. Whereas, the activities identified to address quality issues, none was accomplished, two on going and eleven pending; while under governance four activities were accomplished, none on going and four pending. On the overall, of the twenty-five activities planned, five were accomplished, three on going, and seventeen pending. From the statistics above, performance rate for Teacher Education & Management Program during the period under review is **20%.** See appendix 6 for performance status details as obtained from the bureau.

Education Management and Accountability

The efficacy of system accountability and management holds critical implication for institutional transformation and reform. Towards this end, the MoE planned to increase system access through the establishment and operationalization of three Centres of Excellence, and provision of scholarship to deserving Liberians. Furthermore, the MoE planned to up-scale system accountability and management through improving quality of education service delivery and system control, workforce reform at central, county and district levels; as well as strengthening the education sector capacity for planning, monitoring, budgeting and financing by adopting bottom-top approach. In addition, strengthen MoE Infrastructure Management, and provide support for improved functions and accountability at decentralized levels (County & District).

Moreover, the MoE planned to review and update the Education Sector Plan, and develop sector reports. The table below shows performance status in Access, Quality and Governance.

Whereas performance tracking within **Education Management and Accountability** unearthed eight key targets and forty-seven activities that were planned to address Access, Quality and Governance. The eight key target and forty-seven activities planned and accomplished were:

Provide scholarship for deserving Liberians;

Achievement:

- Provided 883 local scholarships and 103 foreign scholarships to deserving Liberians
- Provide support for improved functions and accountability at decentralized levels (County & District)
- Impact evaluation and scale up of LEAP conducted
- Strengthen implementation of education workforce reform at central, county and district levels

- Created fiscal space through Harmonization Scheme that absorbed all supplementary teachers to the regular payroll.
- Created fiscal space to retire 1,732 potential teachers
- Analysis conducted for 900 functionally illiterate teachers to be removed from the payroll
- HR Management system developed
- Conducted training for relevant staff to roll out HR Management system at the county and district levels
- Improving education service delivery and system control
- 124 DEOs, 5 M&E Officers and 21 Central Office staff trained in School leadership and SQA
- Provided 168 data collection gadgets to EOs and CPS
- Re-constituted, inducted and trained county school board
- Conduct impact evaluation and scale up LEAP
- Developed draft SOP for Procurement, HR, Finance, Internal Audit and Transport
- Developed LEAP New framework and MOU
- Procured and installed Automate Finance and Accounting Processes
- Conducted training on the use of the automated system
- Strengthen MOE Infrastructure Management
- Classroom observation tool digitized for supervision and monitoring
- Completed Consolidated and digitized School Census, SQA, and School Grading instruments
- Digitized tool rolled out to all counties
- 168 data collection gadgets provided to EOs and CPS
- Strengthen Education Sector Planning, Monitoring, Budgeting and Financing adopting the Bottom-Top approach
- Framework developed for programmatic budget and shared with MFSP
- MOE programmatic budget incorporated in the National Budget template of 2019-2020.
- Domestic Financing Matrix and UNESCO Information Statistics are employed to track education expenditure
- DFM & UIS have both been sent to UNESCO and the GPE
- Secured funding from donor for capacity developed of planning staff, and signed MOU with training institutions
- Complete the establishment and make functional 3 Centers of Excellence
- Develop ToR for 2 directors and 7 subject specialists
- Set-up assessment framework for Curriculum standards
- Developed structure and ToR for Center of Excellence for Accreditation
- Hired Executive Director to manage the Center of Excellence for Accreditation

Table 1.7B above shows that Education Management and Accountability earmarked fifty-seven activities to address Access, Quality and Governance. Of the fifty-seven activities planned, three each address Access and Quality, and forty-one address Governance. Of the forty-one activities planned to address governance issues under Education Management & Accountability program, twenty-seven were accomplished, five ongoing, and nine pending. Of the three activities planned access issues under Education Management and Accountability, one was achieved, one ongoing and one pending; while to address the issue of quality, one activity was achieved, one ongoing and one pending, On the overall, of the forty-seven activities planned, twenty were accomplished, seven ongoing, and eleven pending. From the statistics above, performance rate for Education Management & Accountability program during the period under review is **62%.** See appendix 6 for performance status details as obtained from the bureau.

Summary of Achievements

The MoE planned a total of two hundred sixty-five activities for one Fiscal Year (2018/2019) of the G2B-ESP Operational Plan to address Access, Quality and Governance. As presented in the table below, of the two hundred sixty-five earmarked for implementation during the reporting period, forty-one (16%) address access, one hundred seventeen (44%) activities focused on quality; while one hundred seven (40%) activities were planned to address education governance. Regards to overall performance, of the forty-one access activities, twelve were accomplished, constituting (29%) against plan, seven (17%) ongoing and, and twenty-two (54%) pending. Under quality, forty activities were accomplished, accounting for (34%), twenty-nine (25%%) ongoing, and forty-eight (41%%) pending; while under governance, forty-five (42%%) accomplished, twenty-two (21%%) ongoing, and forty (37%%) pending.

| Pillar | Activitie s Planned | Com | pleted | Ongo | oing | Pendin | g |
|-----------------|---------------------------|-----|--------|------|------|--------|-----|
| ACCESS | 41 | 12 | 29% | 7 | 17% | 22 | 54% |
| QUALITY | 117 | 40 | 34% | 29 | 25% | 48 | 41% |
| GOVERNANCE | 107 | 45 | 42% | 22 | 21% | 40 | 37% |
| MoE Performance | 265 | 97 | 37% | 58 | 22% | 110 | 41% |

| Table 2: Pillars | Achievement Statistics Summary |
|------------------|---------------------------------|
| | Achievenient Statistics Summary |

According to data obtained from the various program areas with respect to performance, the overall performance rating of the MoE during the period under review (2018/2019) is as follows: Completed Activities **ninety-seven (37%)**; Ongoing Activities **fifty-eight (22%)**; and Pending Activities **one hundred ten (41%).** For the period under review, data obtained on planned

interventions implementation status from the various program units show that, in spite of the MoE overall low performance rate, the best performed program unit during the reporting period is **Education Management & Accountability Program, 62% achievement rate**, while the least preformed program unit is **STEM, TVET & Inclusive Education Program, 3% achievement rate**.

4.0 Conclusion

The 2018/2019 JESR set thirty-nine targets with two hundred sixty-five activities to achieve within a one-year implementation period of the Operational Plan carved from the five-year G2B Education Sector Plan, emphasizing increased access, improved quality and governance.

The targets and activities were planned to address access, quality and governance linked to program areas. Planned under Early Childhood Education were four priority targets along with forty-two linked activities identified to address Access, Quality and Governance; Basic and Secondary Education eleven priority targets, fifty-seven linked activities; Students Personnel Service six priority targets, forty-eight linked activities; Teachers Education and Management two priority targets, twenty-five linked activities; TVET, STEM and Inclusive Education five priority targets, thirty-three linked activities; Higher Education three priority targets, nine linked activities; and Education Management and Governance eight priority targets, forty-seven linked activities.

During the period under review, of the forty-two activities planned under **Early Childhood Education Program**, thirteen address Access, twenty-four address Quality, and five address Governance. Of the thirteen activities earmarked to address Access, three were achieved, two ongoing, and eight pending; under Quality, two were achieved, one ongoing, and two pending; while under Governance, two were achieved, one ongoing, and two pending. The overall achievement rate for Early Childhood Education is **44%**.

Under Basic and Secondary Education Program, the fifty-seven activities planned, four address Access, thirty-five address Quality and eighteen address Governance. Of the four activities planned to address Access, all four were accomplished; under Quality, seventeen activities were accomplished, five ongoing and thirteen pending; while under Governance, three activities were achieved, five ongoing and ten pending. The overall achievement rate for Basic and Secondary Education is **42%**.

Student Personnel Services, of the forty-eight activities planned eleven address Access, twenty address Quality and seventeen address Governance. Of the eleven activities planned to address Access, three were accomplished, three ongoing and five pending; Under Quality, eleven were achieved, five ongoing and four pending; while for Governance, seven were achieved, five ongoing and five pending. The overall achievement rate for Students Personnel is **44%**.

Teachers Education & Management, of the twenty-five activities planned four address Access, thirteen address Quality, and eight Governance. The four activities planned to address Access, one was accomplished, one ongoing and two pending; whereas under Quality, none was accomplished, two ongoing and eleven pending; and regarding Governance, four activities were accomplished, none ongoing and four pending. The twenty-five activities planned or five were achieved, while three are ongoing and seventeen pending. The overall achievement rate of Teachers Education and Management for the period under review is **20%.**

STEM, Special & Inclusive Education and TVET, of the thirty-three activities earmarked, five address Access, nineteen address Quality and five were linked to Governance. The activities planned to address Access, none was fully achieved, one ongoing and four pending; under Quality, one activity was accomplished, seven ongoing and eleven pending; while under Governance, none was accomplished, four ongoing and five pending. The thirty-three activities earmarked, one was accomplished, twelve ongoing and twenty pending. The overall achievement rate of STEM, TVET & Special & Inclusive Education for the reporting period is **3%.**

Development focus of the **Higher Education Program** for the reporting period, emphasized improved quality and governance. Towards this end, three priority targets along with nine linked activities were planned. Of the nine activities identified, one addresses Quality and eight address Governance. The eight governance related activities, one was achieved, two ongoing and five pending; while the one activity identified to address quality was to achieved. The overall achievement rating of Higher Education for the reporting period is **22%**.

Finally, Education Management and Accountability Program identified forty-seven linked to eight key targets. Of the forty-seven activities earmarked, three address Access, three Quality and forty-one linked to Governance. The activities planned to address Access, one was achieved, one ongoing and one pending; under Quality, one activity was achieved, one ongoing and one pending; while under Governance remarked achievement realized with twenty-seven activities recorded as accomplished, five activities ongoing and nine pending. The overall achievement rate of Education Management and Accountability Program for the reporting period is 62%.

| Activity 3.1.6.1: Provide continue needed support to processes | | With support from UNICEF, 40 community- based centers provided with needed support | Administrative bottlenecks | Interventions in the form of incentives for staff, stationery and sanitary supplies |
| Activity 3.1.6.2: Monitor support processes | | Ongoing | Lack of logistics and administrative bottlenecks are impediments | Periodic inter- agency monitoring (MOE & UNICEF) |
| Activity 3.1.7.1: Identify and | | In collaboration with EPAG- PIU/CAP, 210 adolescent girls | | Planned activity accomplished |

| | shortlist adolescen t girls | | were identified and shortlisted. | | |
|--|--|--|---|--|---|
| | Activity 3.1.7.2:Fa cilitate training activities | | In collaboration with EPAG- PIU/CAP, facilitated training of 210 adolescent girls as ECE teacher- aids at two satellite locations in Montserrado County (Duport Road and Bardnesville) | | Planned activity accomplished |
| | Activity 3.1.7.3: Monitor training activities | | In collaboration with EPAG- PIU/CAP, monitoring of training conducted; monitoring of internship activities ongoing | | Periodic inter- agency (MOE, WB, CAP) monitoring of internship activities ongoing |
| 3.2: Roll out ECE certification of, and training for, teachers through Rural Teacher Training | Activity 3.2.1.1: Identify locations and candidate s for CPD | | With support from GPE/WB, (a) location for CPD was identified (WRTTI), and (b) candidates identified and shortlisted for CPD | Delay from CEOs to submit names from their counties | Planned activity accomplished |

| Institutes, colleges and universities | Activity 3.2.1.2: Conduct CPD in- service training for shortliste d ECE teachers | | With support from GPE, in collaboration with WE-CARE Foundation, ToT for training at WRTTI completed; CPD pending | CPD pending; recalibrate implementation modalities. Main activity pending |
|--|--|--|---|---|
| | Activity 3.2.1.3: Monitor CPD training | | Pending | Contingent upon Activity 3.2.1.2 commencemen t; Recalibrate implementation modalities |
| | Activity 3.2.2.1: Identify and shortlist 300 ECD caregivers for training in ECDSTEP | | In collaboration with WE-CARE Foundation, 300 ECD caregivers identified and shortlisted for ECDSTEP training | Planned target was accomplished |
| | Activity 3.2.2.2: Conduct training for shortliste d ECD caregivers | | In collaboration with WE-CARE Foundation, training ongoing | Training ongoing |
| | Activity 3.2.2.3: Monitor ECDSTEP training | | In collaboration with WE-CARE Foundation, monitoring of training ongoing | Monitoring of training ongoing |

| | Activity 3.2.3.1: Identify and shortlist 350 ECE teachers for C- certificate training at RTTIs | | Identified and shortlisted 157 in- service ECE teachers for training | The target of 350 teachers was not fully achieved. Activity ongoing. |
|---|--|--|---|---|
| | Activity 3.2.3.2: Conduct C- certificate training for 350 ECE teachers at RTTIs | | With support from GPE/WB, in collaboration with WE-CARE Foundation, 157 in-service ECE teachers trained at WRTTI | The target of 350 teachers was not fully achieved. Activity ongoing. |
| - | Activity 3.2.3.3: Monitor training for 350 ECE teachers at RTTIs | | Monitoring of training was conducted | Accomplished |
| | Activity 3.2.4.1: Identify and shortlist 210 adolescen t girls from the EPAG | | In collaboration with EPAG- PIU/CAP, 210 adolescent girls were identified and shortlisted. | Accomplished |

| Activity 3.2.4.2: Upgrade capacity of 210 adolescen t girls from the EPAG to ECE C- certificate | | Pending | | Capacity upgrading will form part of EPAG 2020 portfolio |
|---|--|---------|---|--|
| Activity 3.2.4.3: Monitor training | | Pending | | This will form part of the EPAG 2020 portfolio |
| Activity 3.2.5.1: Facilitate harmoniz ation of ECE Degree program across Colleges and Universiti es | | Pending | Information sharing and coordination lacking | Encourage coordination between and information sharing among NCHE, Bureaus of Teacher Education and Early Childhood Education |
| Activity 3.2.5.2: Develop common curriculu m and resource materials for ECE Degree program | | Pending | Information sharing and coordination lacking | Encourage coordination between and information sharing among NCHE, Bureaus of Teacher Education and Early Childhood Education |
